

## Keil Addons

ajay\_bhargav, Tue Jun 20 2006, 06:38 am

hello friends,

i am here with another quality stuff.

i call it "KEIL ADDONS"

now simulate your LEDs and LCD in the software itself. with the help of these addons. go to the download section and download the addon. and follow these instructions to install them and use them,

How to install the extension DLLs

The DLLs work only with  $\mu$ Vision2 V2.30 or higher versions.

1. Copy the DLLs in the subdirectory \keil\c51\bin.
2. Open the file TOOLS.ini in subdirectory \keil and include the following part in the section [C51]:

AGSI2=LCD.DLL ("LCD simulation")

AGSI2=LED.DLL ("LED simulation")

!!!!If  $\mu$ Vision2 is open during the procedure you have to restart it.

How the extension DLLs work

After starting the simulation you will find the following new entries in the folder Peripherals:

LCD

LED

so use them and post your comments about it.
