

Download Updated - 11 New 8051 Projects

ajay_bhargav, Wed Jul 04 2007, 04:05 pm

Dear students,

All new update for Rickey's World. Added eleven new 8051 microcontroller projects for students looking for new ideas and projects. Here is the list of projects added...

Â 1. Â **InfraRed Remote Switch (6 devices + 1 fan) -AT89S52**

Â 2. Â **Microcontroller Based Caller ID (AT89C2051)**

Â 3. Â **Microcontroller Based Digital code Lock (AT89C2051)**

Â 4. Â **Multipattern Running Lights (AT89C2051)**

Â 5. Â **Parallel Telephone with auto secrecy (AT89C2051)**

Â 6. Â **PC BASED DATA LOGGER (AT89S52 + VB)**

Â 7. Â **PC Based Robot (AT89C2051)**

Â 8. Â **Prepaid Energy Meter (AT89S52)**

Â 9. Â **RF Based Remote control (AT89C2051)**

10. RFID Based Attendance System (AT89S52 + RFID)

11. RFID Based Security System (AT89S52 + RFID)

All projects are in assembly language. These projects are made by one of our site member [Binu](#). I really appreciate his contribution to Rickey's World. if you want to contribute for projects.. please mail me.. at [contact\[at\]rickeyworld\[dot\]info](mailto:contact[at]rickeyworld[dot]info)
